CATALOGUE IPD

**ipd** was founded and originated in the dental sector, specializing in the manufacturing and marketing of PROSTHETIC ABUTMENTS for DENTAL IMPLANTS. Available in more than thirty countries, **ipd** offers a wide range of superior quality products, providing innovative solutions in the field of dental implants/prosthetics. **ipd** is now a global leader in compatible abutments.

# Who we are

## About us

Our products are manufactured utilizing advanced technology and adhering to the highest quality standards. This includes constant supervision of the exact geometric dimensions and hygiene requirements for the abutments. The components are manufactured under the strictest parameters and procedures established by our engineers in close collaboration with recognised professionals and dentists.

## A little background information

We have been operating in Spain since 2004, offering the widest range of dental abutments compatible with the main implant brands. Our goal is to offer technically advanced products of the highest quality and provide the best solutions to our customers.

## Quality assurance

At **ipd**, the quality and excellence in our products is of highest priority.

We work with rigorous quality controls that allow us to offer functional, safe and quality products to meet the most demanding market expectations.

**ipd**, its management system and its products comply with the applicable regulatory requirements:

- **Medical Device Manufacturing License**

Issued by the AEMPS (Spanish Agency of Medicinal Products and Medical Devices).

- **CE MARK**

All our products have the CE mark according to Regulation EU 2017/745.

Notified Body: IMQ ISTITUTO ITALIANO DEL MARCHIO DI QUALITÀ S.P.A. NB No. 0051.

- **MDSAP (Medical Device Single Audit Program)**

The Quality Management System complies with the requirements of ISO 13485:2016 and of the requirements of the following regulatory authorities: Australia, Brazil, Canada and United States.

- **FDA**

IPD is registered in the FDA's Establishment and Device Listing database, with Registration Number 3016954909.

- **Health Canada**

IPD has the Medical Device Establishment License from Health Canada, MDEL No. 18296.

- **ISO 13485:2016. Medical devices. Quality management systems.**

**Requirements for regulatory** Certificate No. 9124.IPDE. First Issuing on 27/10/2010.

- **ISO 9001:2015. Quality management systems. Requirements**

Certificate No. IT-96895.

# Enjoy the new IPD ONLINE SHOP!

Intuitive and easy to use, is born to become the reference e-commerce for top-edge implant componentry.

Quality, precision, and reliability just a click away.

## Custom Interface Ti-Base System

Flexibility made Ti-Base

### The most flexible and versatile Ti-Base on the market

Choosing a suitable Ti-Base for each clinical case and restoration is essential for a long term success

### Custom Interface Ti-Base system Get to know its innovative design

- + Asymmetrical **tri-lobe engaging** design.
- + **Easier to mill** geometry.
- + **Helical spiral** grooves for improved retention.
- + **Larger surface area for the prosthetic restoration** to avoid insufficient thickness depending on the materials used.
- + **Three different Ti-Base platforms:** Narrow, Regular, and Wide. The emergence profile will accordingly grow from implant to prosthetic restoration.
- + **Adjustable height:** With 8 mm as standard for the engaging versions and 6.5 mm for non-engaging.
- + **The recess for the Angled Screw Channel (ASC) can be adjusted** for both engaging and non-engaging. Check availability according to implant system.
- + **CAD-CAM** libraries are available for all possible variations.
- + Different **gingival heights** for up to 3.5 mm.
- + **Cutting guides** with fixing screw facilitate cutting and **trimming**

# PSD System

## Locator® Compatible

### Small improvements make big differences

Fully compatible with the Locator® system will bring you the chance to improve without changing.

The two PSD available retention set will be enabling to save up to 40° divergence levels between implants. Each set will be including the relevant three retention level sleeves. The reduced coronal geometry of the PSD anchor reduces the necessary vertical dimension improving not only aesthetics but prosthetic resistance.

### TiN coating

The TiN coating improves periodontal aesthetics whilst reducing friction level getting into less wear for abutment and retention.

## First digitalized overdenture system

IPD releases a one-of-kind solution enabling to digitalize PSD attachments. Nevertheless this item has also been designed to maximise the benefit by supporting additional features such as impression coping or carrier.

- 1 Carrier
- 2 Impression coping
- 3 Scan Abutment
- 4 Dike

### Carrier

Thanks to its ergonomic design, this accessory allows to easily handle as well as aiding clinicians at chairside.

### Impression Coping

Cutting the carrier just above the grooved shape will allow it to be used as an impression cap whereas it will also be possible to splint them if necessary.

### Scan Body

By simply cutting on the blue line customer will get through a PSD Scan body supported by its relevant CAD libraries and even the very first 3D analogue for overdenture attachments. As always it is available for the major CAD systems in the market.

## Cerec® Ti-Base

IPD presents InLab® and Sirona® Cerec® compatible Ti-Base abutments.

- + Fully compatible with Sirona® digital workflow and its CAD libraries.
- + With the Cerec® Ti-Base we are introducing **new technical** innovations.
- + **TiN coating** provides an excellent aesthetic finish with the additional benefit of antibacterial surface properties.
- + Helicoidal grooves on the Ti-Base provide an **improved level of mechanical retention**.
- + **Different gingival heights** to allow different emergence profiles.
- + **Wide range of implant systems\***.

\*Estimated availability second half 2023

# Be Precise

## Scan Abutment

Accuracy, fit and reliability

### One system, all solutions

Revolutionary high-precision Scan Abutment giving access to a fully integrated digital workflow.

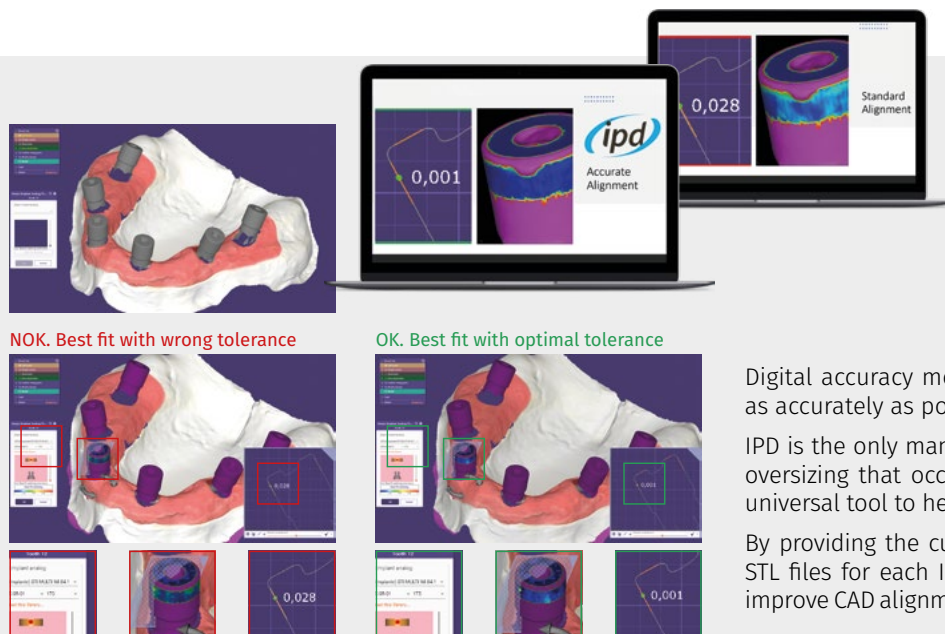

A Scan Abutment suitable for both intraoral and desktop scanning devices enabling to perform implant level frameworks as well as giving access to our Custom Interface Ti-Base System or the one-of-a-kind high precision 3D printed models.

### Scan Abutment

- + Compatible with **intraoral systems** (clinical) and with **desktop systems** (laboratory).
- + Also compatible with the **Renishaw® probe system**.
- + **It includes a captive screw** to prevent loss and make it easier to mount.
- + **The TiN coating** offers antibacterial properties to protect the gingiva.
- + **The Titanium connection** ensures a long-lasting connection and enables the use of Rx.
- + The top section is made of **PEEK**, a polymer that favours implant reading and location.
- + **Maximum Z-precision**, as it rests on the sagittal plane of the implant or analog.
- + **A tolerance of ± 5 microns** throughout the entire manufacturing process.
- + Reference engraved by **laser etching**.
- + **2 heights for engaging**: 10 mm for most cases, and 15 mm for situations involving a very deep implant.

- 1 Captive screw
- 2 TiN coating
- 3 Titanium connection
- 4 Head PEEK
- 5 Maximum Z-precision
- 6 Reference laser etched
- 7 2 heights for engaging versions

## Optimal Best-fit

### CAD Alignment

Digital accuracy means being able to align two STL meshes as accurately as possible.

IPD is the only manufacturer that has taken into account the oversizing that occurs when scanning and has developed a universal tool to help solve it.

By providing the customer with an assortment of 7 different STL files for each IPD scan bodies enables the possibility to improve CAD alignment regardless of the scanning device used.

# Scan Transfer

The dedicated abutment for a precise IO-based workflow for full arch treatments. Scan Transfer is the first abutment offering clinicians a reliable protocol to precisely restore the most demanding clinical cases.

Its design and geometry allow them to be splinted creating a guide for the scanning accuracy by reducing scan distortion and increasing consistency and repeatability. Thanks to Scan Transfer the most demanding clinical cases can be fully restored with an IO scanning device achieving the desired passive fit.

## Technical Specifications

**Verification Screw**

Confirmation that the Scan Transfer is positioned correctly when the screw is flush with the top of the abutment.

### TECHNICAL SPECIFICATIONS

- + Tapered design for easy axial scanning
- + 5 µm
- + Asymmetrical orientation cut-outs
- + Maximized scanning area
- + Retentive body that facilitates splinting

### SPECIFIC LIBRARIES

- + Direct to implant library
- + Direct to implant library with ASC
- + Ti-Base level library
- + Ti-Base level library with ASC
- + Library for straight temporary abutment
- + Digital 3D Model

Compatible with:

# Digital Analog

The most stable and precise

## 3D printing accuracy and reliability

The innovative design of the Digital Analog, with two fixation screws, ensures the exact positioning of the digital analog in a 3D printed model. The two fixation screws ensure that the analog is in the correct position, with one located laterally and the other positioned at the bottom of the 3D printed model. The lateral screw also allows the use of articulator without loss of the bite register.

## Validation master

IPD provides a master STL file to allow final customer checking their printing device resolution. At the same time, a pretend 3D analog will be provided free of charge to allow testing the adjustment on the printed calibration master in a convenient, simple and fast way. Once acknowledge this value customer will have access to a customised CAD library with optimised parameter. There are existing up to 11 different CAD library files to ensure making it suitable to efficiently work with any 3D printing system.

# Be Digital

## CAD Solutions

For all the leading CAD software systems on the market.

Our aim is to simplify and improve the most your digital workflow by providing accurate solutions to your everyday digital challenges. We have developed and tested a full system to guarantee an accurate fully digital flow.

Scan Abutments Extra/Intra-Oral system is the definitive and most integrated solution on the market, allowing you to work with any type of CAD library, Ti-Bases, Direct to Implant (milled connection and sinter-milled connection), Digital Analog (3D printed model), Scan Transfer and more.

Ti-Base level full contour

Ti-Base level framework

Implant level sinter-milled connection

Implant level milled connection

Digital analog / 3D printed model

### Implant Level Libraries

Library file that allows to freely design any framework type at implant level, with both straight and angled screw channel.

### Ti-Base Level Libraries

Library file allowing the design of any type of prosthetic solution on top of the exclusive IPD Custom Ti-Base to produce cemented-screw retained restorations. It's a versatile solution for intended use with aesthetic raw materials offering the most appropriate final result for each clinical case thanks to its flexibility as well as all supported options. For example, the two adjustment tolerances: A tighter and a looser one to support from ceramic to sintered CoCr or PMMA frameworks for example.

### 3D digital model

Through intraoral or Desktop scanning will allow to create high precision 3D models simplifying and facilitating the whole clinical and lab protocol. The full system has been developed to provide a stable, accurate and cost-effective solution.

ModelPro is a dedicated CAD software to the design of 3D models, among many other options, offering in a single software the features of the main dental and mesh editing software's.

Cloud-based, it is the first CAD software that can run on both Windows and Mac OS®. The lack of a dongle allows unlimited installations, and the cloud-based environment offers free access via relevant credentials from anywhere, anytime. Exclusive for IPD customers it offers a top CAD software for designing 3D models completely free of charge.

Model Pro is also supporting unique features such as "Scan Abutment Replace", which allows switching to an IPD workflow from a third-party scan, or the exclusive "Stump Die 3D" system

\*ModelPro is an IPD software submitted to medical devices compliance rules. Check market availability with your IPD official dealer.

- + 3D Model
- + Automatic detection margin prep from CAD
- + Mesh edit, reparation and restoration
- + Scan Abutment alignment
- + Detachable dies
- + Stump Die 3D
- + 3D articulator
- + Digital analog
- + Detachable soft tissue
- + Scan Abutment Replace

## Stump Die 3D

Our software is designed to extend beyond dental implants and provide you with solutions across a range of digital restorative applications.

We understand that producing accurate, detachable dies in 3D printed models can be a challenge. We have developed a system which prevents any mobility and rotation of the detachable die. This solution ensures accurate positioning of the die in relation to the contact points of the adjacent teeth.

IPD's unique solution gives you the tools to ensure predictability and consistency with the removable dies in your 3D printed models.

\*ModelPro and Stump 3D subject to territorial availability. Consult us for disponibility.

## Technical Specifications

- **Double fixation at 90°** which ensures the correct position of the die in the model.
- Screws with **quick thread** for easy handling.
- Unidirectional **plane** for **positioning** according to the model design.
- Extended width at the base of the insert to check for **proper seating**.
- **Reduced size** to enable its use in all types of dies.

## Printer calibration

Screw attachment to the insert for easy manipulation of the test fixture

The Stump Die 3D master file will allow to check printer resolution enabling to choose the relevant OFF value into ModelPro aiding to achieve a proper fitting.

# Working Systems

- STUMP DIE 3D
- CEREC® Ti-BASE
-  Custom Interface System®
- MULTI-UNIT SYSTEM
- PSD SYSTEM
-  Hollow Screw System®
- ACCESORIES
- TECHNICAL SPECIFICATIONS

We understand that producing accurate, detachable dies in 3D printed models can be a challenge. We have developed a system which prevents any mobility and rotation of the detachable die. This solution ensures accurate positioning of the die in relation to the contact points of the adjacent teeth.

IPD's unique **ModelPro** solution gives you the tools to ensure predictability and consistency with the removable dies in your 3D printed models.

## Technical Specifications

- **Double fixation at 90°** which ensures the correct position of the die in the model.
- Screws with **quick thread** for easy handling.
- Unidirectional **plane** for **positioning** according to the model design.
- Extended width at the base of the insert to check for **proper seating**.
- **Reduced size** to enable its use in all types of dies.

## Printer calibration

Screw attachment to the insert for easy manipulation of the test fixture

The Stump Die 3D master file will allow to check printer resolution enabling to choose the relevant OFF value into ModelPro aiding to achieve a proper fitting.

\*ModelPro and Stump 3D subject to territorial availability. Consult us for disponibility.

## CUTTING GUIDE

### Engaging

Platform	Height (mm)	Reference
Narrow	3.5	IPD/KA-IN-35
	5.0	IPD/KA-IN-50
	6.5	IPD/KA-IN-65
Standard	3.5	IPD/KA-IR-35
	5.0	IPD/KA-IR-50
	6.5	IPD/KA-IR-65
Wide	3.5	IPD/KA-IW-35
	5.0	IPD/KA-IW-50
	6.5	IPD/KA-IW-65

Version with agulation window subject to availability.

### NON-ENGAGING

Platform	Height (mm)	Reference
Narrow	3.5	IPD/KR-IN-35
	5.0	IPD/KR-IN-50
	6.5	IPD/KR-IN-65
Standard	3.5	IPD/KR-IR-35
	5.0	IPD/KR-IR-50
	6.5	IPD/KR-IR-65
Wide	3.5	IPD/KR-IW-35
	5.0	IPD/KR-IW-50
	6.5	IPD/KR-IW-65

Version with agulation window subject to availability.

### FIXING SCREW

	Screwdriver	Reference
Every cutting guide	1.20 Hex	IPD/KA-TI-00

### CUTTING GUIDE KITS

Platform	Heights (mm)		
Narrow	3.5 / 5.0 / 6.5	IPD/KT-IN-00	IPD/KT-IN-01
Standard	3.5 / 5.0 / 6.5	IPD/KT-IR-00	IPD/KT-IR-01
Wide	3.5 / 5.0 / 6.5	IPD/KT-IW-00	IPD/KT-IW-01

All kits include the locking screw IPD/KA-TI-00

### SCAN BODY SCREWDRIVER

# WORKING SYSTEMS Multi-unit System

## WORKFLOW DIAGRAM

## INTRA-ORAL / DESKTOP / CONTACT PROBE SCAN BODY

Platform	Height (mm)		
ø4.8	10.0	IPD/AB-SR-00	IPD/AB-SR-01

Captive screw included. 1.20 Hex Screwdriver.

## SCAN TRANSFER

Platform	Height (mm)		Screw
ø4.8	0.5	IPD/AB-SR-11	IPD/AB-TR-11/C

IPD/AB-SR-11 includes screw and a protective cap.

## Ti-BASE

Platform	Post height (mm)	Gingival height		
ø4.8	3.5	0.5	IPD/AB-IR-00/3D	-
		0.2	-	IPD/AB-IR-01/3D
	6.5	0.5	IPD/AB-IR-02/3D	-
		0.2	-	IPD/AB-IR-03/3D

Please see [page 150](#) for the  Custom Interface System® accessories.  
IPD/AB-IR-01 is a  Hollow Screw System® Ti-Base

## SCREW / TPA SCREW FOR ANGLED PROSTHESIS

Platform	Screwdriver	Height	Reference	TiN Reference
ø4.8	Unigrip		IPD/AB-TR-00	IPD/AB-TR-00/TIN
	TPA	For 3.5 mm high Ti-Base	-	IPD/AB-TR-50
	TPA	For 6.5 mm high Ti-Base	-	IPD/AB-TR-51

## ANALOG / DIGITAL ANALOG

Platform	Reference	Digital reference
ø4.8	IPD/AB-AR-00	IPD/AB-AR-00/3D
Bottom Screw	-	IPD/KA-TA-00
Side Screw	-	IPD/KA-TA-01

## TEMPORARY ABUTMENT / OPEN TRAY COPING

Platform			Coping screw
ø4.8	IPD/AB-PR-01	IPD/AB-PR-00	IPD/AB-TR-00/C
	-	IPD/AB-PR-06	-

The same abutment can be used as a temporary abutment with the occlusal screw or as an impression coping using the coping screw.

IPD/AB-PR-06 corresponds to the Classic design, and cannot be used as a coping.

# WORKING SYSTEMS Multi-unit System

## OPEN AND CLOSED TRAY COPING

Platform		Reference
ø4.8	Open tray coping	IPD/AB-CR-00
	Closed tray coping	IPD/AB-CR-01

Classic design.

## HEALING ABUTMENT Titanium / Plastic POM

Platform	Material	Reference
ø4.8	Plastic POM	IPD/AB-DR-00
	Titanium	IPD/AB-DR-01

IPD/AB-TR-00 screw not included.

## CASTABLE

Platform		Reference
ø4.8		IPD/AB-RR-00

## PSD FOR MULTI-UNIT

Platform	Units	Height	Reference
ø4.8	2	3.35 mm	IPD/AB-LR-02

Please see [page 172](#) for the PSD system accessories.

## STRAIGHT AND ANGLED CASTABLE ABUTMENT WITH A Co-Cr BASE Straight, 15° & 25°

Platform	Angulation		
ø4.8	Straight	IPD/AB-BR-00	IPD/AB-BR-01
	15°	IPD/AB-BR-10	IPD/AB-BR-11
	25°	IPD/AB-BR-20	IPD/AB-BR-21

Co-Cr Base for digital workflow			Scan Body	
ø4.8	Straight / Angled	IPD/AB-BR-00/3D	IPD/AB-BR-01/3D	IPD/SC-AN-B2

All angled castable abutments include a TPA screw.
